

## Feature analysis

### Content

Clear Pronunciation takes learners through the 43 phonemes of English. Learners study each phoneme individually, as well as contrasting it with one or more similar or related sound(s). The 25 units of the program are based around these contrasts.

### Ten key learning features

1. Comprehensive coverage of the sounds of English.
2. Each sound illustrated with full-face videos as well as close-up videos of the mouth. More than 1,000 individual audio items.
3. Explanatory text, enabling learners to understand how to make each sound.
4. Series of exercises enable learners to focus on the sound in isolation, in a word, in the context of a sentence, in contrast with other sounds and in an authentic context.
5. A self-learning tool, enabling learners to work on their pronunciation as a private, self-paced activity.
6. Attractive, clear, easy-to-use interface.
7. A Recorder enabling learners to record their voices and compare with a model.
8. Motivational certificate on completion.
9. A Progress function allowing learners to analyse their strengths and weaknesses and plan their learning.
10. Helps students to enjoy pronunciation practice!

### Links and printing

Clear Pronunciation includes links to websites, where learners have to operate in an authentic English environment. Screens and activities can be printed enabling learners to keep a record of the activities they have completed.

### Progress features

The Clear Pronunciation Progress function generates reports on completed activities with score, time, duration; average scores compared with all learners; relative performance in different units (effort and outcome).

Teachers using Results Manager can generate and print reports for individual learners and groups of learners.

### Integrated programs

Clear Pronunciation (optionally) integrates with Author Plus, which enables teachers to add activities, and with Results Manager (see *Progress features* above).

### Dialect version
